

# Teacher Quick Start Guide

The Why & the How of bringing Paper into the classroom

**PAPER**

**24/7 STUDENT SUPPORT**

**Anytime • Anywhere • Unlimited**

## Why Paper?

### 1 Individualized Student Support

- Have more students needing help than you have time for?
- Direct students to login to Paper while completing assignments in class.
- Paper is like having many extra pairs of hands in your classroom!

### 2 Writing Feedback

- Want students to get feedback on their rough drafts, but don't have time to provide that feedback yourself?
- Include uploading rough drafts to Paper's essay review in [writing instructions](#).
- Students get the feedback they need, you get the time you need!

### 3 4 is the Magic Number!

- Teachers are the key to unlocking Paper's benefits for students.
- Students who use the platform at least **4 times during class** are more likely to continue to use it on their own.

## How to use Paper in the classroom

### → Add Paper to assignments

After direct instruction, direct students to use Paper tutors to complete their independent practice. Include this in the assignment instructions!

### → Make Paper a station

When working in station rotations, create a Paper station for students to get help from a tutor while you work with a small group.

### → Use Paper for lesson review

After notetaking or other instruction, have students upload of their notes or assignment to the Paper platform, and work with a Paper tutor on reviewing, revising, and summarizing their work to answer the essential question for the lesson.
